SUMMARY

Senior .NET / Angular engineer and architect with 15+ years building enterprise and mission-critical software. Most recently delivered safety-critical Canadarm3 ground software at MDA (Nov 2022 – Sep 2026), leading backend architecture across Event Sourcing, telemetry schemas, and flight message serialization, and building LLM-powered developer tooling. Designs end-to-end platforms across aerospace, financial services, automotive, media, and healthcare.

Microsoft Certified Solutions Developer (MCSD) | Active Security Clearance

CAREER HIGHLIGHTS

- Improved mission-critical application performance by 100%+ and serialization throughput by 1000%
- Led a team of 6 replacing a millions-of-lines legacy platform with ASP.NET Core and Angular
- Built LLM code review tooling that raised code review volume 20% and measurably improved quality
- Technical point of contact for 5–7 teams (~30 developers) at Corus; cross-team SME on Canadarm3
- Architected the public-facing Angular/NgRx frontend for RBC Ventures' MoveSnap product

TECHNICAL SKILLS

Languages: C#, TypeScript, JavaScript, Java, SQL

Backend: .NET / ASP.NET Core, Web API, Entity Framework, WCF, SQL Server, Couchbase, PostgreSQL

Frontend: Angular (AngularJS–17), React, RxJS, NgRx, Chart.js, HTML5, CSS3, SASS, Accessibility (WCAG)

Architecture: Event Sourcing, CQRS, Microservices, SOA, Actor Model, Serverless

Cloud & DevOps: Azure, AWS, Docker, Kubernetes, Azure DevOps, GitHub, Jira, Confluence

Testing & Quality: Playwright, Jest, Vitest, Jasmine, Karma, BenchmarkDotNet, TDD, Page Object Model, OWASP

AI & Automation: Ollama API, LLM code review tooling, Claude Code, GitHub Copilot, context engineering

Messaging & Protocols: WebSockets (SignalR), Redis Pub/Sub, MessagePack, CCSDS, NASA cFS

PROFESSIONAL EXPERIENCE

MDA | Senior Consultant, Canadarm3 / GERS Ground Software | Nov 2022 – Sep 2026

- Stabilized a message-driven .NET platform with SOLID design, DI, and standardized config/logging

- Architected the Mission Planning backend with C# Event Sourcing on Couchbase for audit history
- Architected Redis Pub/Sub messaging: publishers, subscribers, channel naming, and testing fakes
- Designed the Project Data Model, a code generator emitting C++, C#, and TypeScript message types
- Built a high-performance C# serializer for big-endian CCSDS flight messages from NASA cFS systems
- Drove 100%+ app performance and 1000% serialization gains via Playwright/CDP and BenchmarkDotNet
- Introduced Playwright E2E testing, Jest and Vitest unit tests, and backend acceptance harnesses
- Built code review tooling on the enterprise Ollama LLM API, lifting review volume 20% and quality
- Cross-team SME; documented designs in PlantUML and C4; interfaced with Cyber Security audits

Tech: C#, .NET, TypeScript, Angular 17, React, Couchbase, Redis, SignalR, Playwright, Docker, Kubernetes

AppCentrica | Senior .NET / Angular Consultant | Mar 2022 – Jul 2022

- Migrated a Cordova mobile app from Android 6 to 10, upgrading its complex Java-based plugins

Tech: Cordova, Java, Android

Protiviti (Contract) | Senior Angular Consultant | Dec 2021 – Mar 2022

- Built reusable Angular 11 component libraries integrated with ASP.NET Core APIs and OAuth2

Tech: Angular 11, TypeScript, ASP.NET Core, OAuth2

RBC Ventures (MoveSnap) | Fullstack Developer | Sep 2020 – Dec 2021

- Angular SME on a 5–7 developer team; architected the entire public-facing Angular/NgRx frontend
- Translated Figma designs into pixel-accurate, responsive Angular components and pages
- Led development standards and PR review practices, lifting frontend velocity an estimated 10%

Tech: Angular, NgRx, TypeScript, ASP.NET Core, PostgreSQL, AWS

AutoTrader.ca | Senior Fullstack Developer | Sep 2019 – Aug 2020

- Built public-facing Angular/TypeScript components and C# APIs for a top automotive marketplace
- Improved ad delivery performance and viewability metrics on a dedicated highest-ROI feature team

Tech: Angular, TypeScript, C#, Web API

Comsense | Software Engineer (Lead) | Aug 2017 – Sep 2019

- Led a team of 6 replacing a millions-of-lines legacy Windows platform with ASP.NET Core + Angular
- Solved complex multi-user concurrency in door pricing and project management workflows
- Presented architecture recommendations directly to the CTO and senior leadership
- Validated architecture through Azure Functions, App Services, Service Fabric, and Orleans POCs

Tech: ASP.NET Core, C#, Angular, Azure Functions, App Services, Service Fabric, Orleans, Kendo UI, Azure DevOps

Corus Entertainment | Architect | Nov 2015 – Aug 2017

- Technical point of contact for 5–7 teams (~30 developers); broke features into technical stories

- Set web architecture best practices; led lunch-and-learns on Angular, RxJS, TDD, and ES6

Tech: Angular, TypeScript, .NET, Web API, WordPress, Drupal, OWASP

CETARIS | Senior Front End Engineer | Dec 2014 – Nov 2015

- Frontend SME on a ~20-person team building fleet management software for Fortune 500 clients

Tech: AngularJS, TypeScript, Web API, OWASP

Morneau Shepell | .NET Developer / AngularJS Developer | Sep 2014 – Dec 2014

- Architected and delivered a CRM application using AngularJS, Underscore, and Web API

Tech: AngularJS, C#, Web API

Digiflare | .NET Developer / AngularJS Developer | Aug 2013 – Sep 2014

- Architected Shomi.com for Rogers Media using AngularJS, MVC, Web API, and Bootstrap

Tech: AngularJS, C#, MVC, Web API, Bootstrap

Canadian Heart Research Center | .NET Developer | 2011 – 2013

- Led 4–5 clinical trial web apps managing data for hundreds of patients and thousands of metrics

Tech: C#, ASP.NET MVC, Web API, AngularJS, PostgreSQL

Maritz Canada | Business Systems Analyst / .NET Developer | 2010 – 2011

- Built enterprise and ad-hoc reporting in C# and SQL Server; VBA automation often doubled output

Tech: C#, SQL Server, VBA

Optima Communications | SQL and .NET Developer, Data Specialization | 2008 – 2010

- Built enterprise .NET/SQL Server reporting; management's single source of truth for ad-hoc data

Tech: C#, ASP.NET, SQL Server, JavaScript

COMMUNITY LEADERSHIP

FaithTech Toronto | City Lead (Volunteer) | 2026 – Present

- Lead the Toronto chapter, uniting technologists, church leaders, and nonprofits for local impact
- Recruit volunteers and host meetups; build partnerships with churches, nonprofits, and sponsors

EDUCATION & CERTIFICATION

Microsoft Certified Solutions Developer (MCSD)

IT Management Certificates, Levels I and II | Ryerson University

Ontario Secondary School Diploma | Cedarbrae Collegiate Institute, Toronto
